Why should the DESIS Ascend Educare Admissions Committee offer you admission over other qualified candidates?

I believe I am a well-equipped candidate with a strong academic record with a **CGPA of 10**. I am also a **Grand Finalist of Toycathon'21** a national-level hackathon with 14219+ teams participated. I have a keen interest in **exploring** the various domains of technology and trying my hands on new **frameworks and libraries**. I believe technology is all about creative ideas and making people's lives better. I always like to explore new things and I am excited to see the intersection of technology and finance in society.

I possess **good leadership and teamwork skills**. I **led a team of 3** people where we bagged **5th position in CodeCamp 2.0**, a National Level Hackathon. I am a **Beta Microsoft Learn Student Ambassador** where I hosted a technical event and also got the opportunity to learn from experienced and knowledgeable leaders.

I am aligned to **open source contributor** where I participated in GirlScript Summer of Code'21 and completed HactoberFest 2020.

The DESIS program will allow me to gain an insightful learning experience from knowledgeable leaders with a diversity of backgrounds and perspectives.
