Web Developer   December 2020
The Sparks Foundation
🔗 https://maitryeechoudhary.000webhostapp.com/
- Developed a web application to allow the users to have transaction of money and display the updated amount after transactions.
- Frontend: HTML, CSS   Backend: Php, MySql

Skills

- Programming Languages: C, C++
- Web Technology: HTML, CSS, JavaScript, React.js
- BackEnd: Php, MySql

Projects

Rat in Maze -Web Application | *HTML, CSS, React.js, Data Structures and Algorithms*
- Implemented the visualization of famous backtracking problem.
- Display all the possible paths from source to destination.

Placement Record System | *HTML, CSS, Php, MySqL, BootStrap4*
- Led a team of four and build a website that aims to solve the issue of manually keeping student records who got placed in different companies and searching a particular student record.
- The website will have all records stored in the efficient way and searching for a particular record would be easy by just one click.
- To summarize large data-sets the website will generate graphs and pie-charts based on the records.

Google Keep Clone | *HTML, CSS, React.js*
- Implemented the Google Keep features like adding the multiple notes and deletion of note.

Activities

Open Source Contributor
GirlScript Summer of Code'21
- Contributed to open source projects and made pull requests and got to learn a lot.

Member of Computer Society of India
- The society conducts a plethora of technical workshops which enhanced my technological level.

Honors

Microsoft Learn Student Ambassador   January 2021
- I got to learn about various tools and technologies provided by Microsoft and it's learning modules which ultimately build the foundation for Alpha level.

Grand Finalist of Toyathon'21 - National Level
- A initiative by Government of India to build games based on Indian history and it's culture.
- My team intend to develop a game that would help children virtually learn about the diverse culture and heritage of India by playing a quiz and earning many rewards.
